CHARACTER APPEARANCE

The Courtwizards of Dundee boast a lofty title but little substance: under the sole guidance of a weary Master Arcanist, a few scrappy apprentices shuffle through a cramped, draft-riddled tower wing whose shelves sag beneath scant, dust-covered tomes. Their arcane instruments - cracked crystal orbs, warped brass athames, and tarnished wand cores - rattle with disuse, and any hope of unearthing ancient scriptures has long since withered in the absence of royal funding. While King Dundax XIII entrusts the Knights of Crail with the realm's true defence, the wizards eke out a modest reputation by improvising half-baked wards and scavenging forgotten rituals from tattered pages. Still, beneath peeling plaster and fading sigils, a spark of ambition remains: they dream that one day their humble order might reclaim its lost glory.

ALLIES & ORGANIZATIONS

NAME

Courtwizards of Dundee

SYMBOL

Born into a noble house whose influence had long since withered to academic appointments and ceremonial roles, Archie was pushed toward the clergy by his overbearing mother. But faith, he declared, was "an unreliable heuristic built on emotional supposition". Instead, he buried himself in the measurable, provable, explodable truths of arcane science.

He arrived at Broughty Castle fresh from his family's private tutors, declaring his intent to "revive the scientific dignity of applied evocation". He has since been relegated to copying scroll fragments, clearing bird nests from broken observatory lenses, and organizing magical component shelves by spectral weight.

Yet still - he lectures. He theorizes. He believes.
Where others see moldy tomes, Archie sees raw data.
Where others mutter forgotten incantations, he constructs theoretical models.
Where others patch a ward with chicken blood and hope, he calculates the harmonic discharge window of a planar bleed.

CHARACTER BACKGROUND

Kinetic Resonance Theory ($KRT + \Delta t$)

$$K = \lambda(E) \times \Theta(\Psi) \times \delta(\Delta t)$$

(K = kinetic potential, λ = elemental load, E = energy input, Θ = spell structure, Ψ = caster's harmonic attunement, $\delta(\Delta t)$ = temporal synchrony)

$KRT + \Delta t$ posits that evocation magic isn't wild elemental force - it's a form of resonant frequency manipulation, tuned to the metaphysical structure of matter and time. Properly applied, even a low-level spell like Fire Bolt can become devastating - if timed to a target's resonance peak.

Unfortunately, no one else in the courtwizard tower understands his diagrams. And no one else cares.

[illegible]

PERSONALITY TRAITS

I live by a strict personal code - everything from my sleeping arrangements to the alphabetical organization of my spellbook is meticulously maintained. Chaos, in all its filthy unpredictability, is the domain of barbarians, not scholars.

Alignment *Lawful Neutral*

IDEALS

Order: Magic, like life, should be structured and disciplined. There's elegance in precision.

Knowledge: Accumulating and preserving magical knowledge is the highest pursuit.

BONDS

My spellbook is my most prized possession. Its organization is sacred, and woe to those who smudge its pages. My professor rejected my work once - his mistake.

FLAWS

I believe I'm the smartest person in any room - and I make sure everyone knows it. My blunt honesty often comes out at the worst possible time, sometimes sabotaging diplomacy or alliances.

SPELLS KNOWN

FEATURES AND SPELLS

HUMAN TRAITS

RESOURCEFUL

You gain Heroic Inspiration whenever you finish a Long Rest.

SKILLFUL

Animal Handling

You gain proficiency in one skill of your choice.

VERSATILE

Alert Feat

You gain an Origin feat of your choice.

FEAT

ALERT

You gain the following benefits.

Initiative Proficiency. When you roll Initiative, you can add your Proficiency Bonus to the roll.

Initiative Swap. Immediately after you roll Initiative, you can swap your Initiative with the Initiative of one willing ally in the same combat. You can't make this swap if you or the ally has the Incapacitated condition.

SKILLED

Calligrapher's Supplies, Forgery Kit, Perception

You gain proficiency in any combination of three skills or tools of your choice.

WIZARD TRAITS

RITUAL ADEPT

You can cast any spell as a Ritual if that spell has the Ritual tag and the spell is in your spellbook. You needn't have the spell prepared, but you must read from the book to cast a spell in this way.

ARCANE RECOVERY

You have a pool of inherent magic that replenishes when you take a Long Rest. In this pool you have an amount of charges equal to half your Wizard Level (round up). You can use these charges out of combat to restore expended spell slots. Recovering a spell slot costs a number of charges equal to the spell level and none of the slots can be level 6 or higher. For example if you're a level 4 Wizard, you have 2 charges in your pool and are able to regain either one level 2 spell slot or two level 1 spell slots.

POTENT CANTRIPS

Your damaging cantrips affect even creatures that avoid the brunt of the effect. When you cast a cantrip at a creature and you miss with the attack roll or the target succeeds on a saving throw against the cantrip, the target takes half the cantrip's damage (if any) but suffers no additional effect from the cantrip.

EVOCATION SAVANT

Choose two Wizard spells from the Evocation school, each of which must be no higher than level 2, and add them to your spellbook for free. In addition, whenever you gain access to a new level of spell slots in this class, you can add one Wizard spell from the Evocation school to your spellbook for free. The chosen spell must be of a level for which you have spell slots.

SPELLS

CANTRIP

BLADE WARD

Abjuration Cantrip

Casting Time: Action

Range: Self

Components: V, S

Duration: Concentration, Up to 1 Minute

Whenever a creature makes an attack roll against you before the spell ends, the attacker subtracts 1d4 from the attack roll.

FIRE BOLT

Evocation Cantrip

Casting Time: Action

Range: 120 Feet

Components: V, S

Duration: Instantaneous

You hurl a mote of fire at a creature or object within range. Make a ranged spell attack against the target. On a hit, the target takes 1d10 fire damage. A flammable object hit by this spell ignites if it isn't being worn or carried.

Cantrip Upgrade. This spell's damage increases by 1d10 when you reach 5th level (2d10), 11th level (3d10), and 17th level (4d10).

TOLL THE DEAD

Necromancy Cantrip

Casting Time: Action

Range: 60 Feet

Components: V, S

Duration: Instantaneous

You point at one creature you can see within range and the single chime of a dolorous bell is audible within 10 feet of the target. The target must succeed on a Wisdom saving throw or take 1d8 Necrotic damage. If the target is missing any of its Hit Points it instead takes 1d12 Necrotic damage.

Cantrip Upgrade. The damage increases by one die when you reach levels 5 (2d8 or 2d12), 11 (3d8 or 3d12), and 17 (4d8 or 4d12).

LEVEL 1

CHROMATIC ORB

1st-Level Evocation

Casting Time: Action

Range: 90 Feet

Components: V, S, M (a diamond worth 50+ GP)

Duration: Instantaneous

You hurl an orb of energy at a target within range. Choose Acid, Cold, Fire, Lightning, Poison, or Thunder for the type of orb you create, and then make a ranged spell attack against the target. On a hit, the target takes 3d8 damage of the chosen type.

If you roll the same number on two or more of the d8s, the orb leaps to a different target of your choice within 30 feet of the target. Make an attack roll against the new target, and make a new damage roll. The orb can't leap again unless you cast the spell with a level 2+ spell slot.

Using a Higher-Level Spell Slot. The damage increases by 1d8 for each spell slot level above 1. The orb can leap a maximum number of times equal to the level of the slot expended, and a creature can be targeted only once by each casting of this spell.

DISGUISE SELF

1st-Level Illusion

Casting Time: Action

Range: Self

Components: V, S

Duration: 1 Hour

You make yourself-including your clothing, armor, weapons, and other belongings on your person look different until the spell ends. You can seem 1 foot shorter or taller and can appear heavier or lighter. You must adopt a form that has the same basic arrangement of limbs as you have. Otherwise, the extent of the illusion is up to you.

The changes wrought by this spell fail to hold up to physical inspection. For example, if you use this spell to add a hat to your outfit, objects pass through the hat, and anyone who touches it would feel nothing.

To discern that you are disguised, a creature must take the Study action to inspect your appearance and succeed on an Intelligence (Investigation) check against your spell save DC.

IDENTIFY

1st-Level Divination (Ritual)

Casting Time: 1 Minute

Range: Touch

Components: V, S, M (a pearl worth at least 100 GP and an owl feather)

Duration: Instantaneous

You choose one object that you must touch throughout the casting of the spell. If it is a magic item or some other magic-imbued object, you learn its properties and how to use them, whether it requires attunement to use, and how many charges it has, if any. You learn whether any spells are affecting the item and what they are. If the item was created by a spell, you learn which spell created it.

If you instead touch a creature throughout the casting, you learn what spells, if any, are currently affecting it.

MAGE ARMOR

1st-Level Abjuration

Casting Time: Action

Range: Touch

Components: V, S, M (a piece of cured leather)

Duration: 8 Hours

You touch a willing creature who isn't wearing armor. Until the spell ends, the target's base AC becomes 13 plus its Dexterity modifier. The spell ends early if the target dons armor.

SHIELD

1st-Level Abjuration

Casting Time: Reaction

Range: Self

Components: V, S

Duration: 1 Round

An invisible barrier of magical force appears and protects you. Until the start of your next turn, you have a +5 bonus to AC, including against the triggering attack, and you take no damage from magic missile.

FIND FAMILIAR

1st-Level Conjuration (Ritual)

Casting Time: 1 hour

Range: 10 feet

Components: V, S, M (10 gp worth of charcoal, incense, and herbs that must be consumed by fire in a brass brazier)

Duration: Instantaneous

You gain the service of a familiar, a spirit that takes an animal form you choose: bat, cat, crab, frog (toad), hawk, lizard, octopus, owl, poisonous snake, fish (quipper), rat, raven, sea horse, spider, or weasel. Appearing in an unoccupied space within range, the familiar has the statistics of the chosen form, though it is a celestial, fey, or fiend (your choice) instead of a beast.

Your familiar acts independently of you, but it always obeys your commands. In combat, it rolls its own initiative and acts on its own turn. A familiar can't attack, but it can take other actions as normal.

When the familiar drops to 0 hit points, it disappears, leaving behind no physical form. It reappears after you cast this spell again. As an action, you can temporarily dismiss your familiar to a pocket dimension. Alternatively, you can dismiss it forever. As an action while it is temporarily dismissed, you can cause it to reappear in any unoccupied space within 30 feet of you. Whenever the familiar drops to 0 hit points or disappears into the pocket dimension, it leaves behind in its space anything it was wearing or carrying.

While your familiar is within 100 feet of you, you can communicate with it telepathically. Additionally, as an action, you can see through your familiar's eyes and hear what it hears until the start of your next turn, gaining the benefits of any special senses that the familiar has. During this time, you are deaf and blind with regard to your own senses.

You can't have more than one familiar at a time. If you cast this spell while you already have a familiar, you instead cause it to adopt a new form. Choose one of the forms from the above list. Your familiar transforms into the chosen creature.

Finally, when you cast a spell with a range of touch, your familiar can deliver the spell as if it had cast the spell. Your familiar must be within 100 feet of you, and it must use its reaction to deliver the spell when you cast it. If the spell requires an attack roll, you use your attack modifier for the roll.

JIM'S MAGIC MISSILE

1st-Level Evocation

Casting Time: 1 action

Range: 120 feet

Components: V, S, M (1 gp, which is consumed as tax for using the spell)

Duration: Instantaneous

You create three twisting, whistling, hypoallergenic, gluten-free darts of magical force. Each dart can target a creature of your choice that you can see within range. Make a ranged

spell attack for each missile. On a hit, the missile does 2d4 force damage.

If the attack roll scores a critical, the missile does 5d4 force damage instead of the 4d4 force that you would normally get on a critical. If any of the attack roll is a natural one, all missiles turn around and hit the caster for 1 force damage per missile.

Using a Higher-Level Spell Slot. When you cast this spell using a spell slot of 2nd level or higher, the spell creates one more dart for each slot level above 1st. This also increases the tax by 1 gp per spell slot over 1st.

ALARM

1st-Level Abjuration (Ritual)

Casting Time: 1 minute

Range: 30 Feet

Components: V, S, M (a tiny bell and a piece of fine silver wire)

Duration: 8 hours

You set an alarm against unwanted intrusion. Choose a door, a window, or an area within range that is no larger than a 20-foot cube. Until the spell ends, an alarm alerts you whenever a tiny or larger creature touches or enters the warded area. When you cast the spell, you can designate creatures that won't set off the alarm. You also choose whether the alarm is mental or audible.

A mental alarm alerts you with a ping in your mind if you are within 1 mile of the warded area. This ping awakens you if you are sleeping. An audible alarm produces the sound of a hand bell for 10 seconds within 60 feet.

LEVEL 2

SUGGESTION

2nd-level enchantment

Casting Time: 1 action

Range: 30 feet

Components: V, S, M (a snake's tongue and either a bit of honeycomb or a drop of sweet oil)

Duration: Concentration, up to 8 hours

You suggest a course of activity (limited to a sentence or two) and magically influence a creature you can see within range that can hear and understand you. Creatures that can't be charmed are immune to this effect. The suggestion must be worded in such a manner as to make the course of action sound reasonable. Asking the creature to stab itself, throw itself onto a spear, immolate itself, or do some other obviously harmful act ends the spell.

The target must make a Wisdom saving throw. On a failed save, it pursues the course of action you described to the best of its ability. The suggested course of action can continue for the

entire duration. If the suggested activity can be completed in a shorter time, the spell ends when the subject finishes what it was asked to do.

You can also specify conditions that will trigger a special activity during the duration. For example, you might suggest that a knight give her warhorse to the first beggar she meets. If the condition isn't met before the spell expires, the activity isn't performed.

If you or any of your companions damage the target, the spell ends.

AGANAZZAR'S SCORCHER

2nd-level evocation

Casting Time: 1 action

Range: 30 feet

Components: V, S, M (a red dragon's scale)

Duration: Instantaneous

A line of roaring flame 30 feet long and 5 feet wide emanates from you in a direction you choose. Each creature in the line must make a Dexterity saving throw. A creature takes 3d8 fire damage on a failed save, or half as much damage on a successful one.

SNILLOC'S SNOWBALL SWARM

2nd-level evocation

Casting Time: 1 action

Range: 90 feet

Components: V, S, M (a piece of ice or a small white rock chip)

Duration: Instantaneous

A flurry of magic snowballs erupts from a point you choose within range. Each creature in a 5-foot-radius sphere centered on that point must make a Dexterity saving throw. A creature takes 3d6 cold damage on a failed save, or half as much damage on a successful one.

Using a Higher-Level Spell Slot. When you cast this spell using a spell slot of 3rd level or higher, the damage increases by 1d6 for each slot level above 2nd.

MISCELLANEOUS

EXPANDING THE SPELLBOOK

The spells you add to your spellbook as you gain levels reflect your ongoing magical research, but you might find other spells during your adventures that you can add to the book. You could discover a Wizard spell in a book, for example, and then copy it into your spellbook.

Copying a Spell into the Book. When you find a level 1+ Wizard spell, you can copy it into your spell book if it's of a level you can prepare and if you have time to copy it. For each level of the spell, the transcription takes 2 hours and costs 50 GP. Afterwards you can prepare the spell like the other spells in your spellbook.

Copying a Scroll into a Spellbook. A Wizard spell on a Spell Scroll can be copied into a spellbook. When a spell is copied in this way, the copier must succeed on an Intelligence (Arcana) Check with a DC equal to 10 plus the spell's level. On a successful check, the spell is copied. Whether the check succeeds or fails the Spell Scroll is destroyed.

Copying the Book. You can copy a spell from your spell book into another book. This is like copying a new spell into your spellbook but faster, since you already know how to cast the spell. You need spend only 1 hour and 10 GP for each level of the copied spell.

If you lose your spell book, you can use the same procedure to transcribe the Wizard spells that you have prepared into a new spellbook. Filling out the remainder of the new book requires you to find new spells to do so. For this reason, many wizards keep a backup spellbook.

THE KINGDOM OF FIFE

HISTORY

Founding of Dundee. In the dawn of the Common Era, the legendary hero Dundax strode forth from the mist-shrouded moors of eastern Caledonia. Guided by visions of a greater destiny, he chose the fertile, winding banks of the River Tay as the cradle of his new realm. There, amidst ancient standing stones and roaming elk, Dundax raised the first ramparts of Dundee, proclaiming it the capital of the newly born Kingdom of Fife. Under his wise rule, Dundee blossomed from a simple settlement into a beacon of artifice and valour, its timber-framed halls echoing with festivals in honour of the river's spirits.

The Great Eagle War. Over seven centuries later, the realm trembled beneath the thunder of war. In 743 AD, the bitter feud between the rival principalities of Angus and Fyfdonia erupted into the cataclysm known as the Great Eagle War. Eagle-standardised banners blotted out the sky, and sorcerers of both sides summoned lightning from storm-clouds to rain devastation upon villages and hamlets. Countless innocents perished in the crossfire of ambition. Yet when all seemed lost, a radiant manifestation of cosmic justice - an immense, winged seraph of pure light - soared above the battlefield. Its clarion cry rallied the weary soldiers to lay down arms and unite under a single banner. Thus was born the unified Kingdom of Fife, with Dundee - formerly within the borders of Angus - enthroned as its enduring capital. Under this new era, the people of Fife swore an oath of harmony, forging bonds of steel and spirit that would withstand the ages.

MEMBERS

King Dundax XIII. King Dundax XIII, sovereign of Fife's storied throne, rules with a steady hand and a vision of lasting harmony. Deeply committed to the welfare of his realm, he has fostered alliances across the land and now places his hopes on his son's union with Iona McDougall - believing their marriage to the Grandmaster of Crail's daughter will bind two great houses and secure a peace that endures through the ages.

Ser Proletius. Ser Proletius, true son of Crail's ramparts, was born, raised, and trained within its stone walls. Celebrated for his keen tactical mind and versatile mastery of arms, his strength of body and will is legendary. Whether he inherited his title or seized it through sheer merit remains unknown, but none doubt his fitness to lead Crail's knights.

Prince Angus McFife. Angus McFife I, eldest son of King Dundax XIII and heir to the throne of Fife, is beloved for his gentle spirit. Fiercely protective of his people and his pet ape, Bobo, he's known to pause royal processions to aid injured animals and share humble meals with commoners, his kindness outshining any crown.

Iona McDougall. Iona McDougall, daughter of Ser Proletius, combines elven grace - her silver hair and emerald eyes - with a warm, just heart. Betrothed to Angus McFife I, her kindness and fairness already mend disputes and uplift the humble, promising a reign of harmony beside her future king.

MAGIC ITEMS

ON THE HISTORY OF MASTER ARCANISTS

A book containing the history and description of the following spells:

- Jim's Magic Missile
- Melf's Acid Arrow
- Melf's Minute Meteor
- Leomund's Secret Chest

These spell can be copied into a spellbook.
